Finally, welcome to NFU!

Your first lesson at university may not always take place in a classroom.

It could be your first time choosing your own courses, getting lost while finding a classroom, staying up late to finish an assignment, or meeting a group of people who will be by your side for years to come.

In the days ahead, may you gain more than just credits. May you gain experiences, friendships, and stories of your own.

Class of 2026, welcome to the Department of Electronic Engineering!

DEE, unlocking university life with you.
